MRS. PARNELL'S

SHE SAYS SHE IS BEING SUED FOR PUR-POSES OF ANNOYANCE.

Declaring that the Claims Made Against Her in Behalf of the Estates of Relatives are Uniounded-Bright Prospects of the Home Rule Movement in England and Ireland -Effect of the Decree from Rome.

Mrs. Delia L. S. Parnell, the mother of the Irish leader, arrived in this city from England yesterday on the steamer Germanic just in time to meet an unpleasant experience. Her half-brother, Edward L. Stewart, who is executor of the wills of his wife, Mary, and of Charlotte Smith, deceased, also a relative of Mrs. Parnell, has filed bills in equity against her in a Philadelphia court, asking her to account for sums of \$3,000 and \$4,580 which are alleged to have been given to her in trust. Attachments have just been issued against Mrs. Parnell's property in Philadel-

The first intimation which Mrs. Parnell received of these suits was from the story published in the papers this morning.

"This is very unpleasant for me, I assure you," she said to an Evening World reporter who called upon her at the New York Hotel, "especially as I am still very weak from the effects of my long illness. The trouble is an old one, but I had not antici-pated that it would take this phase."

"Are you still indebted to either of these estates?"

"Are you still indebted to either of these estates?"

"I owe them nothing at at all. I have paid over thousands of dellars to them and the suits are brought merely to annoy me. Hesides that, I have a counter claim against Mr. Stewart, who has occupied my property for years without paying a cent of rent, and this would a great deal more than overbalance the claim which he now sets up. As for any charge that I have wiifully or fraudulently withheld money belonging to these estates, it is simply ridiculous. I shall place the matter at once in the hancs of my lawyer, Mr. Harrison, of this city, and instruct him to oppose vigorously every attempt to bring up this old family mat er, which has been long since settled."

Mrs. Parnell turther stated in regard to the foreign attachments that have been issued against her property in Philadelphia, that she did not believe the property could possibly bring enough in the market to cover the amount of the claims against her.

When asked what her special object in returning to New York at this time was, Mrs. Parnell replied:

"I came over solely to see my property at Bordentown, N. J., and to arrange some private matters here which required my personal attention, I have been away from this country now for a year and a halt, and during most of that time I have been very ill. I am still scarcely able to attend properly to business matters.

"Have you been actively interested in the

sonal attention. I have been away from this country now for a year and a halt, and during most of that time I have been very ill. I am still scarcely able to attend properly to business matters.

"Have you been actively interested in the Home Rule movement during your stay in England?"

"During the latter part of the time, yes. Although I have spent most of my time in London, I visited London not long ago. It is wonderful to see what progress the Irish movement has made within the past year. It is continually gaining ground in Ireland in spite of the efforts of the Government to repress it, and in England the sentiments held by Guadstone and the Liberal party are spreading among will look after the matter. and the Liberal party are spreading among

all classes.

"There are a great many of course who think that this gs do not move fast enough and are inclined to be impatient. This is especially the case in Ireland. I think, however, that you cannot reasonably expect such a revolution to be brought about with greater rapidity than it is being pushed forward at

the present time.
"I do not think that the Nationalists gen-"I do not think that the Nationalists generally will be guided in their policy by the decrees from Rome, and there is a disposition to ignore the Pope entirely. The priests, however, are bound to obedience, and they will undoubtedly do their best to carry out the instructions from Rome. As they have a great hold upon the Irish people, it is to be presumed that that their influence will be felt in this regard."

Mrs. Parnell will go to Bordentown this afternoon.

ROBERT T. ARNOLD BLOWS OUT HIS BRAINS WHILE TEMPORARILY INSANE.

A WEALTHY MAN'S SUICIDE.

Ending His Life in His Happy Home at Summit, N. J., While Crazed with Neuraigie Pains-His Rash Act Apparently the Result of a Sudden Resolve-His Beautiful Wife Prestrated with Grief.

SUMMIT, N. J., May 19.—Robert Townsend Arnold, one of the most prominent residents of Summit, who is believed to have speculated largely in coffee in New York, committed suicide late last night by shooting bimself in the head.

He returned from New York at 4.30 P. M. yesterday, seemingly in the best of spirits, About 9.30 he went to the stable to give orders to his coachman to have the carriage ready for an ear y train this morning, intend ng to go to New York on business.

He sat and talked to the coachman for half an hour and then returned to the house. He retired to bed about 10.45.

Fifteen minutes later he asked his wife to get a lamp and light it. While she was absent he took a revolver from his bureaudrawer, and, placing it close to his right emple, blew his brains out. The revolver was a 42-calibre one, which

ne kept on hand to guard against tramps. The bullet entered the right temple, passing completely through the brain and lodging under the skin of the left temple. Death

ing under the skin of the left temple. Death ensued instantly.

Mr. Arnoid recently tought a beautiful brown stone house on the Boulevard, adjoining the house of G. W. Dillingham, a New York publisher. It was in a prominent situation on very high ground, which gave a very commanding view of the surrounding country. He paid over \$25,000 for it.

Mr. Arnold was a son of C. T. Arnold, of Townsend, Arnold & Co., and a brother of Dr. Glover C. Arnold, a well-known New York physician. He came from Charleston, S. C., with h's father in 1859. He was of good family, and he inherited an ample fortune from his mother. Mary Selina Arnold. He married very happily about ten vears ago. His wife, a daughter of the late Gen. Butterfield and a very beautiful woman, brought him another fortune of more than \$100,000.

In Mrs. Arnold's will was a very peculiar provision that her bequest to Robert Townsend Arnold should not take full effect unless and until he attained the age of \$5 years. His thirty-fifth birthday occurred only a few weeks ago.

He lived in style here, spending most of his time in beautifying and enlarging his house and grounds. He gave frequent entertainments until a few months ago, when he had a severe attack of pneumona. More recently he was a great sufferer from neuralgia.

Mr. Arnold was so wealthy that money troubles can hardly be alleged as a motive for his act. It is thought that he committed suicide in a fit of temporary insanity, brought on by acute neuralgic pains in the head.

Mr. Arnold left no children. He was a prominent Mason, and recently he organized a lodge in Summit. Mrs. Arnold is half-crazed with grief.

Edwin T. Bartlett. of 48 Wall street, Mr. Arnold's counsel, said that his client was in the city yesterday and that he complained of severe pains in the head. Mr. Arnold had no troublesome litigation on hand, and he did not believe that he was at all embarrassed by exceptations.

The Fire Department Called Out in the Navy-Yard at Midnight.

John Shanahan, a marine from the Omaha who had been in the Brooklyn Navy-Yard only two days, and was on sentry duty at the east gate, passed through a good deal of excitement in a short time last night.

The dry dock and the Cob Dock destroyed by fire; inflammable material about in abunog nre; innammable material about in abundance; hundreds of pounds of powder gone in blue, disagreeable, odorous smoke; a magazine filled with cans of dynamite near by; were some of the visions which, it is presumed, flitted through his mind.

Sentry Shanahan heard the bells of the City of Churches toil the hour of 10 o'clock as he paced his post, and he thought the un-

enough powdered dynamite in his immediate neighborhood to blow him into ingdom come, he didn't stop to investigate, but pulled the buttons in the sentry house.

In less time than it takes to tell it, the four city companies were batterin; the eastern ga e and demanding admission into the Navy-Yard. The officers in charge of the saluting howitzer of the Vermont, placed for convenience on the Cob Dock, fired a shot in the air, and the 100 marines of the Navy-Yard Department had tumbled out of their bunks in the barracks and were scurrying hither and thither in search for the fire.

They searched in vain. The utmost diligence failed to find a spark, and in half an hour the engine and truck people, the marines and the officers of the yard were returning grumbling to their beds, while Shanahan comforted himself with the feeling that it was better to be too careful than to be careless.
